

Product data sheet

DEFENDA D14

Defenda D14 oil additive

Defenda D14 is a Nano technology specially formulated for Diesel engines of passenger car motor oil, heavy duty engine oil and diesel generators.

Defenda D14 is oil additive for internal combustion engines (stabilizer of HTHS - motor oil viscosity)

BENEFITS

- Remetalizes the engine
- Reduces high temperature deposits
- Prevents oil burning
- Eliminates unstable compression
- Eliminates smoke
- Reduces excessive fuel consumption

Properties	Test method	Values
Appearance	ASTM D1500	Viscous liquid from brown to black colour
Kinematic viscosity @100°C	ASTM D445	100mm ² /s
Flash point °C	ASTM D92	160 °C
Flammability	ASTM D1230	Not flammable
Oxidizing properties	ASTM D4310	Absent

PACKAGING

500mls
