LUBCON has brought 33 years of innovation into the Lubricants industry. It was the First Nigerian oil and gas company to be ISO Certified 23 years ago

The combination of research and innovation has placed Lubcon in the forefront of lubrication technology with unique formulations that protect, preserve, and prolong the lives of engines.

Our Vision

To make an impact in the Energy Ecosystem focused on quality and reliability

Our Mission

To be a World-Class Energy Company exceeding the changing needs of Customers and Stakeholders, using cutting-edge technology and highly trained and motivated talented personnel, whilst ensuring optimum returns to our Shareholders.

Nano Adrenalin 5W30

API: SN/CF ILSAC GF-5

NANO "3D" FORMULATION

100% SYNTHETIC

NANO ADRENALIN 5W30 is an innovative full synthetic motor oil that incorporates nano additives for total engine protection. It is formulated in accordance with the requirements of major car manufacturers for Petrol, Diesel, CNG and turbocharged vehicles.

Super Resurs 20W50

API: SL | CF

ADVANCE ANTI-WEAR PROTECTION

GIVES 2X CLEANER ENGINE WITH
NANO TECHNOLOGY FORMULATION

SUPER RESURS 20W50 is an engine lubricant with advanced Nano Technology formulation to reduce fuel consumption considerably. It gives extended drain time in most high-performance Petrol, Diesel, CNG and turbocharged passenger cars, four-wheel-drive vehicles, and light vans.

- Protects
- Preserves
- Prolongs Engine Lives

Nano Dieselube 15W40

API: CI-4/SL

NANO "3D" FORMULATION

NANO DIESELUBE 15W40 is a heavy duty formulation for diesel engine oil developed in association with VMP AUTO LLC. It combines top quality mineral base oil with the best nano additives to create the oil that gives superior protection. Nano Dieselube 15W40 Suitable for Diesel, CNG and turbocharged commercial vehicles and trucks.

- Protects
- Preserves
- Prolongs Engine Lives

Nano Engine Treatment

Efficiently protects your engine life.
 Makes the engine run quieter and cooler
 Reduces wear, rust, corrosion and smoke.
 Reduces fuel consumption.

NANO ENGINE TREATMENT is used to extend the life of the engine by removing rust or corrosion that has accumulated in the engine. Its reduces pollution, smoking and fuel consumption.

Standard
Engine Oil

Huile Moteur
Standard

Engine oil
+ Defenda L14

Huile Moteur
Standard
+ Defenda L14

Defenda L14

Engine Oil Viscosity Stabilizer (HTHS)

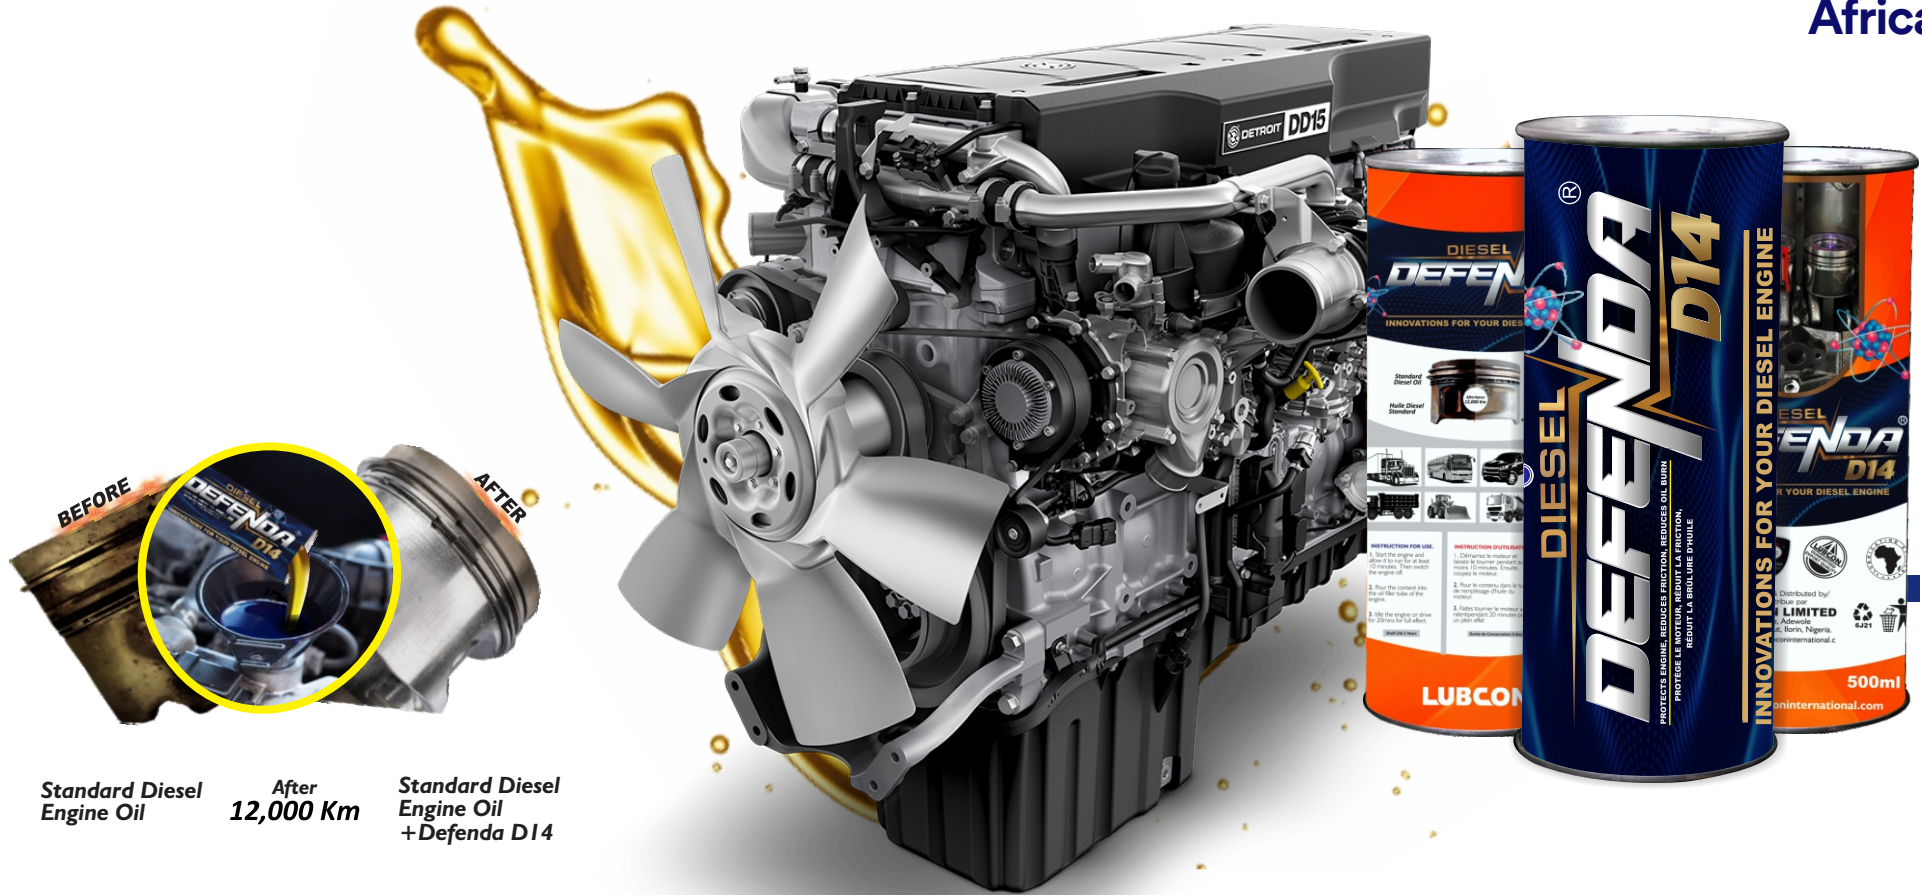

Suitable for Gasoline, CNG, and LPG engines,

Compatible with all types of oils.

DEFENDA L14 is a Nanotechnology based engine oil stabilizer for gasoline engines of passenger tricycle, motorcycle and light generators. Defenda L14 increases the protection of the engine over a wide range of operating conditions, including extreme conditions.

Defenda L14 is an oil additive for internal combustion engines and stabilizes motor oil viscosity using HTHS protection technology.

- Protects
- Preserves
- Prolongs Engine Lives

Standard Diesel Engine Oil After 12,000 Km Standard Diesel Engine Oil + Defenda D14

Diesel Engine Defenda D14

HTHS Engine Oil Viscosity Stabilizer

Suitable for Diesel, CNG and turbocharged commercial vehicles and trucks.

DIESEL ENGINE DEFENDA D14 is a Nanotechnology based engine oil stabilizer, specially formulated for diesel engines. It reduces engine friction and deposits resulting in better compression and fuel efficiency.

Defenda D14 makes the detergent properties of oil function far better. It is suitable for use in heavy-duty engines and is compatible with many types of diesel engine oils

- Protects
- Preserves
- Prolongs Engine Lives

Resurs Next

NANO CONCENTRATE

Reduces fuel consumption by 7-10 %
 Increases compression by up to 50%
 Significantly reduces or totally eliminates oil shortage

RESURS-NEXT is an additive with Nanotechnology, produced to reduce smoking in cars and gives extended drain interval. It is used in and compatible with any engine oil.
